

Australian cyber security: a new investment opportunity

Cyber security is one of Australia's most promising growth sectors.

By 2026, it is expected that:

-  The **US\$131 billion** global cyber security market will increase by 88%
-  An additional **\$31 billion** will be spent on cyber security in the Indo-Pacific region (greater increase than global average)
-  300% potential sector growth in Australia – from \$2 billion to **\$6 billion** – based on economic analysis

Australia has a competitive advantage

Australia has an attractive set of drawcards for investment, including:

-  our services dominated economy
-  quality education system
-  sound governance settings
-  economic stability
-  low sovereign risk
-  high living standards.

Australia has proven expertise in developing and commercialising innovative software and hardware solutions that protect confidential data and transactions throughout the global economy. We are also strong in the development and delivery of cyber security services. Deep technology cyber solutions are achieving global success in competitive markets such as the US, the UK and Indo-Pacific, with an increasing number of investments into Australian cyber security startups and companies.

Connect with Australian companies through AustCyber

AustCyber (the Australian Cyber Security Growth Network) was established in January 2017 under the Australian Government's Industry Growth Centres Initiative. Our mission is to grow a dynamic and globally competitive cyber security sector – this includes delivering knowledge infrastructure that sustains growth of the sector and enables the sector to act as an enabler to every other sector of the economy.

The Australian cyber security industry currently comprises over 500 sovereign companies that span a range of products and services and are spread across the country. This factsheet gives a snapshot of companies that have already attracted investment and reflect key areas of capability. AustCyber is working to grow this number – connect with us:
